

The environmentally friendly solution

HTS RETROFIT CUSTOMER INFORMATION SHEET

Dear customer, in order for us to correctly size and cost your proposed retro fit we ask you to supply us with the following information to the best of your ability. Please don't hesitate to contact us for further assistance.

- 1. Current usage rates on your existing system per day? _____ Persons per day
- 2. How are you gathering this information? Door counters Park Numbers Other (specify)
- 3. Expected growth in usage per year? (ie. 5%) _____ % growth per year
- 4. Is the system a day visitor, camping ground or combination of both? Day visitor Camping Ground
- 5. Current system type? _____
- 6. Is Power available to the site? Solar 240 V mains No
- 7. Is Fresh Water available to the site? Water tank Mains water No
- 8. Is it suitable to discharge final effluent to ground? Yes No
- 9. As they say, a picture paints a thousand words.
Please sketch a floor plan including position of existing pedestals, urinals, basins, vents and post layouts under building.
- 10. The following dimensions are also required and can be shown on the sketch - distance between posts, clear height under the floor the lowest point. Floor joists or gate entry.
- 11. As the retrofit requires us to remove existing tanks and slide the new ones in under the building we need to have a clear work area where the new tanks will access. Please show this on the sketch and dimension.
- 12. Obstructions such as trees should also be shown as we will require access for transport and unloading equipment.
- 13. Finally we ask you to take digital photos of the installation to give us a good idea of the layout of the building and the land. These can be emailed to us or sent in the post.

Thanks for your help. The more information we have now the easier it is to make sure the whole process runs smoothly. We look forward to hearing from you.
